Problem statement:- Creating a School Bookstore Survey Problem: The staff of the school bookstore wants to survey students about their book-buying habits to determine where they purchase their books. The staff has asked you to create a Web page form that contains the questions (create a form containing the basic information like name, address, city, zip, Email id, and ask the questions that make up the survey).

Code:-

```
<html>

<body style="background-color: powderblue;">

<body>

<title> SCHOOL BOOK STORE SURVEY </title>

<h1>SCHOOL BOOK STORE SURVEY </h1>

<h1>Survey to find the book buying behavior of students </h1>

<form>

<label>Name: </label> <input>

<br>

<br>

<label>City: </label> <input>

<br>

<br>

<label>Pin Code: </label> <input>

<br>
```

<label>Address:</label> <input>

<label>Emial-id: </label> <input>

<h2> Where do students often buy books? </h2>

<input type ="checkbox" /> <label> directly form the bookstore: </label>

<input type ="checkbox" /> <label> purchase used books from bookstore: </label>

<input type ="checkbox" /> <label> borrow books form the seniors: </label>

<input type ="checkbox" /> <label> perchase books form the school: </label>

<h3> What your budget goes for the books if you buy new books from a bookstore?

</h3>

<lable > budget for books </lable> <select name="budget" >

<option value="2">above 5000 </option>

<option value="2">above 4000 </option>

<option value="2">above 3000 </option>

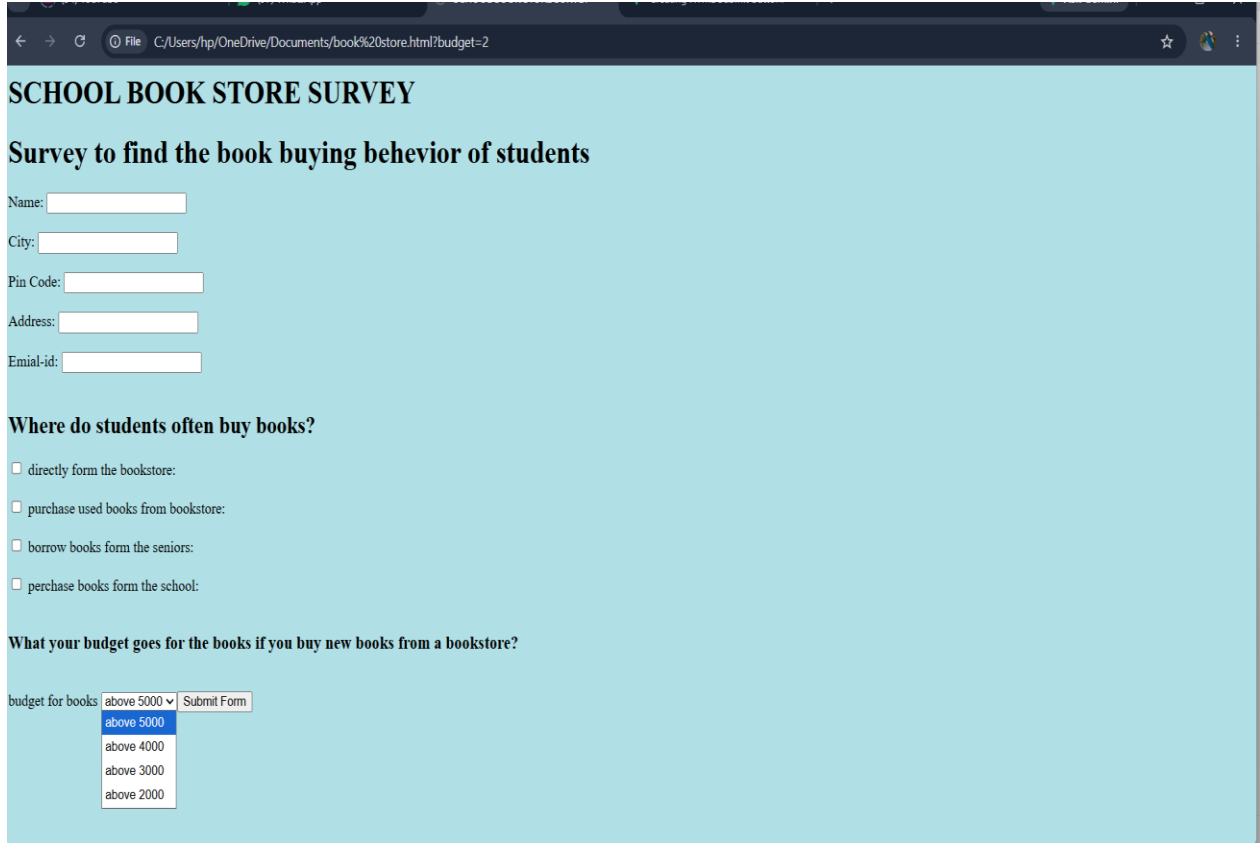

<option value="2">above 2000 </option>

<input type="submit" value="Submit Form">

</form>

</html>

Output:-

The screenshot shows a web browser window with the address bar displaying "C:/Users/hp/OneDrive/Documents/book%20store.html?budget=2". The page has a light blue background and contains the following content:
